

What our customers appreciate about us...

■ **Unique corporate culture – We make you smile**

We are a powerful and committed team. Our team spirit means that we are all dedicated to meeting your needs. People are always central to everything we do. Our honest and caring manner will put a smile on your face. Enthusiasm is captivating!

■ **Our experience – your success**

We have been a reliable partner to communities, cities as well as public and private companies in Switzerland, Germany and Austria for more than 20 years. The expertise of our trusted employees will help you find the solution best suited for you.

■ **Individual advice – tangible quality**

Our top priority is to offer professional and customer-oriented solutions. Our specialists are standing by to advise you individually on the phone or at your premises so you can experience the unique features of our products directly and with your own hands.

■ **Sustainable and durable products**

In-house production and long-term partnerships enable us to achieve the highest quality standards. Our environmentally-friendly manufactured products made of chrome steel convince with their durability, so that our children and their descendants will also have a clean environment.

■ **Symbiosis of design and function**

Their unique design means that our user-friendly and modular products fit into any environment. Our products have been exposed to all sorts of weather for over 20 years and have withstood even the most extreme conditions.

■ **Everything from a single source**

You have a single contact person for all your concerns with us. Our partner networks enable us to offer you a comprehensive carefree package.

■ **Value retention thanks to our services**

Our products are maintained quickly, conscientiously and professionally, and repaired when necessary. From consulting and installation support, to maintenance and many other services – we are here for you. This simplifies your everyday processes and protects your investments in the long term.
